Elimination of Prejudice

Educate. Inspire. Empower.

www.eliminateprejudice.com

Pi Lambda Phi's philanthropy is the Elimination of Prejudice. The mission of the movement is to foster long-lasting community change by addressing differences between people that prevent progress. Pi Lambda Phi, in support of The Elimination of Prejudice, helps promote a better understanding between people through various educational initiatives, seminars, and diverse partnerships.

Rafer Johnson

Olympic Gold Medalist who broke the color barrier at UCLA when he joined Pilam in 1956.

David Temple

Broke the color barrier at University of Virginia when he joined Pilam in 1969.

Jules Lennard

Denied ability to compete in 1936 Olympics due to Jewish heritage, then launched Elimination of Prejudice program near the end of his life.

EOP on Campus

Carroll University

Pilam's premier "Wall of Prejudice" event brings awareness to social prejudices and discrimination.

150

Campus events have been hosted since the philanthropy's founding in 2010.

1895 >>>>>>> TODAY

From the "letter that shook the fraternity world" by Warner, Fisher, and Levy (1895):

"The fraternity seeks no members, save those seeking it. And only the best of those who are progressive, industrious, and non-prejudiced, can seek it successfully."

From Thomas Mandel (Founding Father, Indiana University Fall 2014):

"The EOP movement is important because college is a key time for a student that's immersed in an environment of different people - people of different socio-economic standing, cultures, and religions. Experiencing differences is a big opportunity to grow as an individual. Through Pilam, members work together to overcome barriers of difference and help promote positive community change."

Pi Lambda Phi University

PLPU

Pilam's online learning system is used for various online trainings, including the "Path to Brotherhood", our new member education program. We understand that undergraduate members have numerous priorities, so we designed our system to enable members to learn valuable material on a flexible schedule.

"PLPU is an adaptable system that can accommodate for a wide range of student schedules. I am very involved on campus and PLPU allowed me to manage my time better in reference to other priorities." -Jeffrey Lin, NY Alpha Tau

Regional Recruitment Conference

RRC

OUTCOMES:

- 365 Recruitment
- Regional Networks
- Relationship Management

This one-day training provides our undergraduate members with the opportunity to receive valuable hands-on training from Pilam's international headquarters and Phired Up, the fraternity recruitment experts. The experience consists of learning new skills and techniques for recruiting new members all the while refining their ability to engage others through social excellence.

"I found valuable insight through learning about the significance of being intentional; recruitment is about the process of engaging in high-quality conversations." -Kevin Quintero, CA Tau

Officer Training Conference

OTC

This annual spring conference provides valuable insight for officers, new or returning, to engage and share in content that inspires them to become sound leaders. The OTC is designed to allow members to better understand how to execute strategy and realize chapter-wide success.

OUTCOMES:

- SWOT Analysis
- Applying Emotional Intelligence
- Navigating Team Dynamics

"The training touched on important topics that are often experienced but never really thought about in detail, like having crucial conversations and the stages of group dynamics." -Saad Mughal, NJ Alpha Lambda

Convention

CON

Pi Lambda Phi's annual Leadership Convention is an experience for undergraduate and alumni brothers to come together to learn about new strategies for chapter success, build bonds, and share stories about the Pilam experience. The President's Banquet caps off the experience by honoring successful undergraduates, chapters, and alumni.

"Convention is a chance to compare your passions and interests with those brothers whom you might never otherwise know. Convention, at its core, gives brothers a chance to be brothers." -Nolan Webb, VA Lambda Kappa
